

ICS-991

Surfactant

International
Chemical
Group

Description:

ICS-991 is a blend of surfactants and wetting agents.

Applications:

ICS-991 is a mixture of surface-active agents that is amphoteric in nature. It can be diluted in either water or aromatic solvents.

The ICS-991 is a multifunctional product. It can be used in the following:

- Pressure reduction in disposal wells
- Wetting solids
- Paraffin dispersion

Dosage:

ICS-991 is concentrate and can be used as is or diluted.

Physical Properties:

Appearance: Dark viscous liquid

Solubility: Amphoteric

Specific Gravity: 1.04 – 1.07 @ 25°C (77°F)

Flash Point: > 93°C (200°F)

Dosage (con't):

Treatments rates will depend upon your application.

Handling:

Please refer to the Safety Data Sheet for further handling information.

Packaging:

ICS-991 is available in drum and tote quantities.
