ICS-7600 ICS-7700 Series

Water Clarifiers / Solids Control / Flocculants

Description:

Water Clarifier / Reverse Demulsifiers.

Applications:

The Water Clarifier / Reverse Demulsifiers are used either in a batch application or injected continuously into the oil in water emulsion you are treating.

A technical specialist should test each product in order to determine what application and treatment rate best suits each individual intermediate.

Products:

ICS-7558 Polymeric Water Clarifier
ICS-7605 Iron Sequestering Agent
ICS-7775 Iron and Solids Control Agent
ICS-76077 Anionic Flocculent
ICS-76085 Cationic Flocculent

Physical Properties:

Refer to each individual SDS for specific properties.

Dosage:

Treatment rates will vary as low as 5 ppm and can be as high as 1% depending upon the application.

Handling:

Please refer to the Safety Data Sheet for further handling information.
